

FOR IMMEDIATE RELEASE:

Local Denver company sees strong growth by providing true savings to businesses

Denver, CO March 6, 2009 -- The RPA Group added David Loggins, Director of Sales & Operations, and Matt McLaughlin, Director of Marketing to its management team. Alexandria DeBoe, Michael Fahey and Cameron Hammann were added as Rate Plan Consultants. Justin Kubricek and Mary Frederickson were named Senior Rate Plan Consultants.

Despite the economic downturn, The RPA Group is seeking to fill key positions in sales and customer service at its downtown Denver, CO location immediately.

“Our strong growth continues because at the end of the day, we don’t cost our customers anything. We save them money. And in our current economy, saving money is a very hot commodity,” explains Jim Johnson, CEO & President of The RPA Group.

The RPA Group's wireless expense management services involve analyzing a customer’s cell phone bill, looking for hidden savings. “Our philosophy is ‘keep your cell phone provider- pay them less,’” says Johnson. The RPA Group’s fees are based on the savings the customer receives.

The RPA Group also offers Exchange hosting, Blackberry® Enterprise hosting and account management services. Advantages of their programs include customer support with a live help desk and no wait times, proactive monthly bill review, discounted equipment and accessories, and customized monthly reports.

About The RPA Group

The RPA Group was founded in November 2004 by James Johnson and Emmanuel Hammond.

They believed that there was a need for objective advice on wireless expense management, without any pressure from alternative agendas—meaning the needs of the customer come before those of the carrier.

Expert consultants can help find additional ways to bring profit to companies through managed services that include wireless and hosted Exchange solutions.

Clients typically reduce their expenses an average of 37%. The customer’s savings is directly tied to The RPA Group’s success, so clients can be sure that recommendations have their company, and their bottom line, in mind.
